

Islamiyah Girls High School

Protection of Biometric Information Policy

Document Control:

This document has been approved for operation for:	Islamiyah Girls High school
Date of last review	September 2023
Date of next review	September 2024
Review Period	1 year
Owner	Islamiyah Girls High School
Approved by Governing Body:	

Statement of intent

Islamiyah School is committed to protecting the personal data of all its pupils and staff, this includes any biometric data collected and processed.

The School collects and processes biometric data in accordance with relevant legislation and guidance to ensure the data and the rights of individuals are protected. This policy outlines the procedure the school follows when collecting and processing biometric data.

1. Legal framework

1.1. This policy has due regard to all relevant legislation and guidance including, but not limited to, the following:

- Protection of Freedoms Act 2012
- Data Protection Act 2018
- General Data Protection Regulation (GDPR)
- Department for Education (DfE) (2018) Protection of biometric information of children in schools and colleges

1.2. This policy operates in conjunction with the following school policies:

- Data Protection Policy

2. Definitions

2.1. **Biometric data:** Personal information about an individual's physical or behavioral characteristics that can be used to identify that person, including their fingerprints, facial shape, retina and iris patterns, and hand measurements.

2.2. **Automated biometric recognition system:** A system which measures an individual's physical or behavioral characteristics by using equipment that operates 'automatically' (i.e. electronically). Information from the individual is automatically compared with biometric information stored in the system to see if there is a match in order to recognise or identify the individual.

2.3. **Processing biometric data:** Processing biometric data includes obtaining, recording or holding the data or carrying out any operation on the data including disclosing it, deleting it, organising it or altering it. An automated biometric recognition system processes data when:

- Recording pupils' biometric data, e.g. taking measurements from a fingerprint via a fingerprint scanner.
- Storing pupils' biometric information on a database.
- Using pupils' biometric data as part of an electronic process, e.g. by comparing it with biometric information stored on a database to identify or recognise pupils.

2.4. **Special category data:** Personal data which the GDPR says is more sensitive, and so needs more protection – where biometric data is used for identification purposes, it is considered special category data.

3. Roles and responsibilities

3.1. The Governing Body is responsible for:

- Reviewing this policy on a bi-annual basis.

3.2. The Headteacher is responsible for:

- Ensuring the provisions in this policy are implemented consistently.

3.3. The Data Protection Officer (DPO) is responsible for:

- Monitoring the school's compliance with data protection legislation in relation to the use of biometric data.
- Advising on when it is necessary to undertake a data protection impact assessment (DPIA) in relation to the school's biometric system(s).
- Being the first point of contact for the Information Commissioner's Office (ICO) and for individuals whose data is processed by the school and connected to third parties.

4. Data protection principles

4.1. The school processes all personal data, including biometric data, in accordance with the key principles set out in the GDPR.

4.2. The school ensures biometric data is:

- Processed lawfully, fairly and in a transparent manner.
- Only collected for specified, explicit and legitimate purposes, and not further processed in a manner that is incompatible with those purposes.
- Adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.
- Accurate and, where necessary, kept up-to-date, and that reasonable steps are taken to ensure inaccurate information is rectified or erased.
- Kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed.
- Processed in a manner that ensures appropriate security of the information, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.

4.3. As the data controller, the school is responsible for being able to demonstrate its compliance with the provisions outlined in 4.2.

5. Data protection impact assessments (DPIAs)

- 5.1. Prior to processing biometric data or implementing a system that involves processing biometric data, a DPIA will be carried out.
- 5.2. The DPO will oversee and monitor the process of carrying out the DPIA.
- 5.3. The DPIA will:
 - Describe the nature, scope, context and purposes of the processing.
 - Assess necessity, proportionality and compliance measures.
 - Identify and assess risks to individuals.
 - Identify any additional measures to mitigate those risks.
- 5.4. When assessing levels of risk, the likelihood and the severity of any impact on individuals will be considered.
- 5.5. If a high risk is identified that cannot be mitigated, the DPO will consult the ICO before the processing of the biometric data begins.
- 5.6. The ICO will provide the school with a written response (within eight weeks or 14 weeks in complex cases) advising whether the risks are acceptable, or whether the school needs to take further action. In some cases, the ICO may advise the school to not carry out the processing.
- 5.7. The school will adhere to any advice from the ICO.

6. Notification and consent

Please note that the obligation to obtain consent for the processing of biometric information of children under the age of 18 is not imposed by the Data Protection Act 2018 or the GDPR. Instead, the consent requirements for biometric information is imposed by section 26 of the Protection of Freedoms Act 2012.

- 6.1. Where the school uses pupils' biometric data as part of an automated biometric recognition system (e.g. using pupils' fingerprints to receive school dinners instead of paying with cash), the school will comply with the requirements of the Protection of Freedoms Act 2012.
- 6.2. Prior to any biometric recognition system being put in place or processing a pupil's biometric data, the school will send the pupil's parents a Parental Notification and

Consent Form for the use of Biometric Data.

- 6.3. Written consent will be sought from at least one parent of the pupil before the school collects or uses a pupil's biometric data.
- 6.4. The name and contact details of the pupil's parents will be taken from the school's admission register.
- 6.5. Where the name of only one parent is included on the admissions register, the Headteacher will consider whether any reasonable steps can or should be taken to ascertain the details of the other parent
- 6.6. The school does not need to notify a particular parent or seek their consent if it is satisfied that:
 - The parent cannot be found, e.g. their whereabouts or identity is not known.
 - The parent lacks the mental capacity to object or consent.
 - The welfare of the pupil requires that a particular parent is not contacted, e.g. where a pupil has been separated from an abusive parent who must not be informed of the pupil's whereabouts.
 - It is otherwise not reasonably practicable for a particular parent to be notified or for their consent to be obtained.
 - Where neither parent of a pupil can be notified for any of the reasons set out in 6.6, consent will be sought from the following individuals or agencies as appropriate:
 - If a pupil is being 'looked after' by the Local Authority (LA) or is accommodated or maintained by a voluntary organisation, the LA or voluntary organisation will be notified and their written consent obtained.
 - If the above does not apply, then notification will be sent to all those caring for the pupil and written consent will be obtained from at least one carer before the pupil's biometric data can be processed.
 - Notification sent to parents and other appropriate individuals or age

6.7. will include information regarding the following:

- Details about the type of biometric information to be taken.
- How the data will be used.
- The parent's and the pupil's right to refuse or withdraw their consent.
- The school's duty is to provide reasonable alternative arrangements for those pupils whose information cannot be processed (see section 7).

6.8. The school will not process the biometric data of a pupil under the age of 18 in the following circumstances:

- The pupil (verbally or nonverbally) objects or refuses to participate in the processing of their biometric data.
- No parent or carer has consented in writing to the processing.
- A parent has objected in writing to such processing, even if the other parent has given written consent.

6.9. Parents and pupils can object to participation in the school's biometric system(s) or withdraw their consent at any time. Where this happens, any biometric data relating to the pupil that has already been captured will be deleted.

- specific biometric data beyond pupil photographs is required, e.g. fingerprints, the parent will discuss this with the child and then provide or refuse consent.
- Where staff members or other adults use the school's biometric system(s), consent will be obtained from them before they use the system.
- Staff and other adults can object to taking part in the school's biometric system(s) and can withdraw their consent at any time. Where this happens, any biometric data relating to the individual that has already been captured will be deleted.
- Alternative arrangements will be provided to any individual that does not consent to take part in the school's biometric system(s), in line with section 7 of this policy.

6.10. Alternative arrangements

- Parents, pupils, staff members and other relevant adults have the right to not take part in the school's biometric system(s).
- Where an individual objects to taking part in the school's biometric

system(s), reasonable alternative arrangements will be provided that allow the individual to access the relevant service, e.g. where a biometric system uses pupil's fingerprints to pay for school meals, the pupil will be able to use cash for the transaction instead.

- Alternative arrangements will not put the individual at any disadvantage or create difficulty in accessing the relevant service, or result in any additional burden being placed on the individual (and the pupil's parents, where relevant).

6.11. Data retention

- Biometric data will be managed and retained in line with the school's Records Management Policy.

6.12. If an individual (or a pupil's parent, where relevant) withdraws their consent for their/their child's biometric data to be processed, it will be deleted from the school's system. Monitoring and review

- The local governing board will review this policy on an annual basis.
- The next scheduled review date for this policy is September 2024.
- Any changes made to this policy will be communicated to all staff, parents and pupils.

RE: Notification of intention to process pupils' biometric information and consent form

Dear name of parent,

I am writing to notify you of the school's wishes to use information about your child as part of an automated (i.e. electronically-operated) recognition system. The purpose of this system is to **[specify what the purpose of the system is, e.g. to facilitate catering transactions to be made using pupils' fingerprints instead of by using cash]**.

The information from your child that we wish to use is referred to as 'biometric information'.

Biometric information and how it will be used

Biometric information is information about a person's physical or behavioural characteristics that can be used to identify them, e.g. their fingerprint. The school would like to collect and use the following biometric information from your child:

- [Specify the biometric information you want to collect and process]**

The school would like to use this information for the purpose of providing your child with **[specify the purpose of using the information, e.g. so the child can pay for their school meal using their fingerprint]**.

The information will be used as part of an automated biometric recognition system. This system will take measurements of the biometric information specified above and convert these measurements into a template to be stored on the system. An image of your child's biometric information is not stored. The template (i.e. the measurements taken from your child) will be used to permit your child to access services.

The law places specific requirements on schools when using personal information, such as biometric information, about pupils for the purposes of an automated biometric recognition system. For example:

- The school will not use the information for any purpose other than those for which it was originally obtained and made known to the parent(s) (i.e. as stated above).

- The school will ensure that the information is stored securely.
- The school will tell you what it intends to do with the information.
- Unless the law allows it, the school will not disclose personal information to another person or body.

Please note, the school has to share the information with the following bodies:

- [Specify any third party with which the information is to be shared, e.g. the supplier of the biometric system]**

This is necessary in order to **[specify why it needs to be disclosed to the third party]**.

Providing your consent/objection to the use of biometric data

Under the Protection of Freedoms Act 2012, we are required to notify each parent of a child and obtain the written consent of at least one parent before being able to use a child's biometric information for an automated system.

Consent given by one parent will be overridden if the other parent objects in writing to the use of their child's biometric information. Similarly, if your child objects to the use of their biometric information, the school cannot collect or use the information for inclusion on the automated recognition system.

You can also object to the proposed processing of your child's biometric information at any time or withdraw any consent you have previously given. Please note that you must make any consent, withdrawal of consent or objection in writing.

Even if you have given your consent, your child can object or refuse at any time to their biometric information being collected and used – their objection does not need to be in writing. We would appreciate if you could discuss this with your child and explain to them that they can object if they want to.

The school is happy to answer any questions you or your child may have – please contact the school on info@islamiyahschoolblackburn.com or by telephone on 01254 661259 with any questions.

If you do not wish for your child's biometric information to be used by the school, or your child objects to such processing, the school will provide reasonable alternative arrangements for pupils who are not going to use the automated system to **[insert relevant service, e.g. pay for school meals]**.

Please note that, when your child leaves the school or ceases to use the biometric system, their biometric information will be securely deleted in line with the school's Records Management Policy.

Please complete the form below to confirm if you do or do not consent to the collection and use of your child's biometric information and return it to the school office by **date**.

Kind regards,

Salma Patel

Please complete this form to confirm whether you provide consent for the school to collect and use the following biometric information relating to your child:

This biometric information will be used by the school for the following purpose:

Having read the guidance provided to me by I (please tick your selection):

- Do** consent to the processing of my child's biometric data
- Do not** consent to the processing of my child's biometric data

For parents that have provided consent

Please confirm that you have read and understood the following terms:

- I authorise the school to use my child's biometric information for the purpose specified above until either they leave the school or cease to use the system.
- I understand that I can withdraw my consent at any time.
- I understand that, if I wish to withdraw my consent, I must do so in writing and submit this to **Islamiyah Girls High School, Willow Street, Blackburn BB1 5NQ.**
- I understand that once my child ceases to use the biometric system, the school will securely delete my child's biometric information.

I confirm that I have read and understood the terms above

For all parents
